Experience

Develop for Good — QPAD Connect **May 2026 – Aug 2026**
Product Design Manager

- Led end-to-end design of QPAD Connect, a 0→1 mobile app serving 1,500+ residents, defining product direction, interaction patterns, and MVP architecture.
- Directed a 6-person design team in prioritizing 5 of 11 proposed features, balancing user needs with technical constraints while preserving core workflows.
- Increased resource-finding task success from 38% to 88% through comparative usability testing with 8 users, informing a dedicated Discover page.

Develop for Good — KinFinity **Oct 2025 – Feb 2026**
Product Designer

- Designed KinFinity, a 0→1 reunion-planning website for Black American families, delivering 5 core features, a brand system, and developer-ready handoff.
- Conducted 10 user interviews to translate family planning needs into feature requirements, information architecture, and design direction.
- Conducted 6 rounds of preference testing with 10 participants and WCAG scans, identifying and addressing 3 accessibility issues.
- Adapted all 5 core features from a partner-platform mobile app to a standalone responsive website following platform integration constraints.

Tech Fleet — Agents of Influence **Oct 2025 – Feb 2026**
UX Researcher

- Conducted tree testing with 10 users to improve information architecture and content discoverability, contributing to a 24% increase in website traffic.
- Audited 10 webpages to identify 9 navigation and conversion barriers, informing improvements that contributed to a 17% increase in registrations.

Projects

PadPal **Aug 2025 – Present**
Product Designer

- Designed and shipped PadPal, a 0→1 roommate-matching web app featuring preference-based matching and identity verification, collaborating with an engineer to onboard 20 initial users.
- Increased onboarding completion from 65% to 82% by identifying drop-off points and simplifying the preference survey, profile setup, and authentication flow.

Education

University of California, Irvine **Expected September 2027**
Master of Human-Computer Interaction and Design (MHCID)
Inclusive Excellence Fellowship Recipient — $15,000

Skills

Design: Product Strategy, Interaction Design, Design Systems, Information Architecture, User Research, Usability Testing, Wireframing, Prototyping, WCAG Accessibility

Tools: Figma, FigJam, Miro, Cursor, Claude Design, Vercel (v0)
